## EXPERIENCE

### UX UI Designer - rebecca wyatt.design, Self-employed

April 2020- Present

Seeking projects that will focus on UX Design NOT just UI Design.  
Goal is to utilize my unique educational skills in Psychology, Graphic Design, Frontend Development, and Mobile App Design.  
Passionate about projects that are focused on user-centric design that ALL can use.

### UX UI | Visual Designer - Sesame Software, Santa Clara, CA

February 2018 - March 2020

Redesigned customer web application. UX redesign addressed the low-to-high skill set of users to easily navigate through automated data warehousing of on-premise/Cloud, backup/restore, and data integration with different endpoints. Solutions SaaS and on-premise applications including Salesforce and Pardot. Worked in Marketing and Development teams on UX/UI and Visual Design projects.

### Mobile Production Designer - Pearl Automation, Scotts Valley, CA

January 2016 - June 2017

Delivered redlined iOS/Android UI mobile app Sketch files for iOS/Android to engineering team under Director of Design supervision. The IoT product, RealVision is a wireless backup camera vehicle accessory: license plate frame with Bluetooth wireless connection to an OBD port hub and an iPhone/Android phone. The mobile app navigated the user through review alerts: visual and audible.  
*Note:* This company was composed of former iPod and iPhone design/dev team members of apple.com.

**Previous Employment upon request**
