EXPERIENCE

UX UI Product Designer - [Rebecca Wyatt Design](#)

July 2008 - Present

- Recent client, [boons.io](#): Driver and Delivery mobile apps 2019/2021
- Established design systems via UX/UI research
- Designed UX/UI screens from ideation to shipment
- Worked directly with Engineering and Marketing teams

UX UI Product Designer - [Sesame Software](#)

2018 - 2020

- Shipped Data Recovery web app to Salesforce AppExchange in 2020
- Improved UX/UI design for Data Warehouse product, Relational Junction (SaaS and on-premise web app including Salesforce and Pardot) via CSS3
- UX/UI designed Data Recovery web app from ideation to shipment
- Led/Provided requirements to the Visual Designer
- Worked directly with Engineering and Marketing teams

Production Designer - [Pearl Automation](#)

2016

- Created redlined spec documents of iOS/Android UI screens to the Engineering team to ensure screens are created according to UX/UI requirements
- Delivered redlined mobile UI screens for the IOT product, RealVision, a wireless backup camera vehicle accessory: license plate frame with Bluetooth wireless connection to an OBD port hub and an iPhone/Android phone. The mobile app navigated the user through review alerts: visual and audible
- Worked directly with Design Director/Engineering team that were former iOS team members of apple.com
